

U. S. & AXIS AT WAR

WAR WITH JAPANESE

PRESIDENT ROOSEVELT ASKS DECLARATION WHICH IS VOTED BY CONGRESS IN HOUR AND 29 MINUTES

The Congress of the United States at 12:59 p. m. Monday declared war upon Japan.

President Roosevelt in a historic address, distinguished for its brevity, delivered at 12:30 a. m. Central Standard time, asked for a declaration of war upon the Japanese empire to avenge the attack made upon Pearl Harbor Sunday and to vindicate the position of America, pledged to resist aggression everywhere in the world.

Within 1 hour and 29 minutes after the President, grave and unmistakably moved by the events of the past 48 hours, began his historic address to the House and Senate assembled in the Hall of Representatives, declarations of war had been passed in both the House and the Senate.

Bitter resentment was noted when the President said: "The American people will remember the character of attack made upon us."

It was an unprecedented procedure. When the President entered the House of Representatives leaning upon the arm of his son, Col James

Heavy Demand on Local Draft Board Is Now Anticipated

Local Draft Board Officials are anticipating a heavy demand for man power under the draft now that war has been declared.

There has been no official notice of any change in existing draft regulations.

Men in present draft age limits were being sent to examining physicians of the board. Draft calls for December and January have been filled.

The Board has had several requests for deferment because registrants have enrolled in so called defense schools. In two instances registrants were promised deferment.

Local Board members deem it advisable to warn families against solicitors for such schools as they have no authority over draft regulations. Entry into a school is no grounds for deferment under the law.

Big Grass Fire is Heavy Loss to Black Farm Near Cameron

A pasture, vital to livestock this winter, was burned sometime Sunday on the C. C. Black place north of Cameron.

Mr. Black is offering a reward of \$25 for information leading to the identity of the person or persons who set fire to the grass.

Mr. Black has sustained a very heavy loss. Hunters who go into pastures have been careless. The origin of this fire is not known, but a great many complaints have been made by farmers who say that hunters have caused fires in their pastures by careless use of matches.

AMERICAN BOMBER SINKS JAP BATTLESHIP

An American aviator, driving a bomber, early Thursday had sunk a 31,000 ton Japanese battleship off Manila harbor in the Philippines.

United States army troops had killed or captured a Japanese division which under heavy naval escort had landed on the west coast of Luzon Wednesday about 200 miles from Manila.

An official statement from the headquarters of General Douglas MacArthur, supreme commander in the Philippines, said that the situation is in hand and that American soldiers are mopping up on remnants of the Japanese landing troops.

The communication was brief. A radio broadcast said that the battleship was struck by three bombs. Two of the shots grazed the ship's sides and the third struck it amidship as it surged up out of the water and burst into flames.

It was the first major victory reported for the air force now gathering momentum in the far east.

SENIOR CLASS WILL GIVE PLAY DEC. 18

On the evening of Thursday, Dec. 18th, the Senior Class of Yoe High School will present a play entitled "Miss Smarty."

This play, written by Wilbur Braun, has never been presented in the State of Texas before. It is the best play this distinguished playwright has written.

This play is a farce comedy based on college life. It centers around Hazel Ruth Richards and Bobby Vaughan in the leading roles. Bobbie Elam, Walter Sharpe, Eleanor Knipp, Mary Jane Lowe and Era Mae Foster turn in fine jobs in the supporting roles; while Dick Slocumb supply loads of laughs in the comedy parts.

The present opinion is that this will be one of the best comedies ever produced in Cameron. The story is that a brother and sister from a very wealthy family are sent to college against their will. Upon arrival, they both find that they must leave college for a short time without their father's knowledge. They separately engage friends to impersonate them. This leaves two complete strangers acting as brother and sister. From then on the laughs are fast and furious.

"Miss Smarty" is to be presented at 8 p. m. in the Yoe High School Auditorium. The proceeds from the small admission charge go into the Senior Class Treasury.

ARMY RECRUITING OFFICER

The Army Recruiting Officer will be in Cameron, Friday morning, December 12.

AGED NEGRO WOMAN IS FOUND MURDERED

Aunt Lizzie Robinson, aged and partially blind negro woman was found murdered in her home near Jones Prairie early Sunday morning after a fire which threatened their home had been extinguished.

A sum of money said to be about \$160 which the aged woman had carried in a sack about her waist, was missing.

Deputy Sheriff LeRoy Massengale told the Daily Herald how the officers had pieced together the story of how the aged woman met her death.

Aunt Lizzie and her husband, Henry Robinson live on the Jones farm between Jones Prairie and Cross Roads. At 4:30 a. m. Sunday, according to Henry Robinson who made a statement to officers, he looked out the window and saw a light. Thinking a car had driven up to the house he went out to investigate and found his home on fire.

He awakened his wife and according to his statement, got a ladder and went to the roof where Aunt Lizzie stayed in the kitchen and poured water on the fire. He said after a desperate battle with the flames he succeeded in extinguishing them to a great extent. He then put his wife to bed and ran to the home of another negro, Al Whiteside, for help.

Whiteside is a young negro and ran back to the Robinson home while Uncle Henry came on behind. Whiteside put out the fire, but did not go in the house and on his way back, he met Uncle Henry and told him that Aunt Lizzie did not answer.

They both went back to the house and Uncle Henry went in and found Aunt Lizzie had been murdered.

He said he had left the door closed when he went to get Whiteside.

Aunt Lizzie had been horribly beaten with what officers said was a poker used in the fire place and that she had been stabbed 6 times with a knife. One trust penetrating the lungs.

The money had disappeared. Deputy Sheriff Massengale said 3 suspects are now under arrest and in jail as the officers continued their investigation.

State Rangers were called in to assist. J. H. Arnett, Chemist from the Department of Public Safety; B. F. Spain, Texas Ranger; and McGuyer, Fingerprint expert was also here and officers were Sheriff Valter White and Deputies Carl Black and LeRoy Massengale; Sam Hickman, Constable of Precinct 2 and Justice John Thweatt of Maysfield who held the inquest.

The body was brought to Cameron for an autopsy by Dr. W. R. Newton, Jr., County Health Officer.

DECLARATIONS MADE BY POWERS THURSDAY

Germany and Italy have declared war on the United States.

Mussolini, following a 5 minute speech to the Italian people beat Hitler to the declaration. It came almost two hours before.

In Berlin, Adolph Hitler, purple with rage and displaying his usual hydrophobia, cursed Roosevelt and gave a lift to the already declared war on the United States.

The German Reichstag declared war ahead of the Hitler speech.

Dr. Hans Thomson, German Consul in Washington, called at the State Department early this morning. Secretary of State Hull was not in his office and the German was told to wait. Hull made no effort to get down early, apparently choosing to ignore the Nazi.

Speaker Sam Rayburn of the House of Representatives said the United States will declare war on Germany and Italy at noon Thursday.

Senator Tom Connally of Texas, Chairman of the powerful Foreign Relations Committee in the Senate, was at the Department of State conferring on the war resolution.

Speaker Rayburn said the House would act without much formality.

Winston Churchill spoke at length

DECLARATIONS MADE BY POWERS THURSDAY

in the House of Commons early Thursday. He said the British navy had lost heavily in the Pacific, that Hitler had made the greatest blunder of all time.

Hitler in his speech said that the American course of action was dictated by Jews and Negroes in America.

Japan had previously said that the Negroes with the labor unions will start a revolution, led by Lindbergh and Wheeler.

Hitler worked himself into a frenzy and was said to be almost exhausted. He spoke one hour and 29 minutes. He said that Germany had been defeated in Russia but only temporarily.

Fear spread in some quarters that Germany might now conclude peace with Russia. The Russians are due to stick with Britain and America, if gratitude still prevails in international affairs.

Mussolini's speech was received without much enthusiasm in Italy.

British forces are now entering the last victorious stage of the battle in Libya, said Mr. Churchill.

The government of France in Vichy will declare war on the United States and England.

WHOLE WORLD NOW INVOLVED IN CONFLICT

"The long known and long expected has happened."

With these simple words President Roosevelt at noon today asked the Congress of the United States for a formal declaration of war upon Germany and Italy.

A few hours earlier these two principal Axis countries had declared war upon the United States.

President Roosevelt asked for the declaration in a message of only 135 words.

In the Senate the vote to declare war upon Germany was 88 to 0 and in the House the vote was 393 to 0.

In the Senate for a declaration of war upon Italy the vote was 90 to 0 and the House 393 to 0.

Crayon, Lipstick Add Gay Colors To Yule Candles

Christmas candles for gifts or table decorations can be made at home from bits of discarded candles, and the whole family may have fun doing it.

There is no limit to the shape and size of mold to be used. Card-board boxes such as salt packages or ice cream cartons are very satisfactory. The cartons in which buttermilk is sometimes sold are good for the tapered candles. Good results have even been reported with fancy gelatin molds of certain types and with jelly glasses.

The wick may be fastened through a hole in the bottom of the card-board containers, but in smooth-bot-

tomized molds, it must be kept in place by pouring in a little wax at a time around it, and then allowing it to harden.

Arrange two small sticks at right angles at the top of the mold and tie the wick in the center so that it will be held securely in place during the whole process.

Common string, the wick from an old candle, or commercial candle wicking sold at variety stores or in needlework departments may all be used for the homemade candles.

All wax to be used in a single candle should be melted in the same container, as it is difficult to match colors. Wax crayons are good coloring matter, and some women have used lipstick with success. As the wax cools in the mold, a hole will be formed down the center. Enough wax of the same color should be saved to fill this hole.

Lacking enough old candles to make the large ones now so popular, tallow candles can be made from these proportions: 10 ounces of tallow, 1/2 ounce of camphor, 4 ounces of beeswax and 2 ounces of alum. Melted paraffin, which is sometimes used, is hard to dye and breaks easily.

To make dipped candles, one end of the wick is fastened to a stick or pencil, and the wick dipped into the melted wax for a short time. As many candles as can be fully immersed at each dipping may be made at one time. If the surrounding air is cool, it is not necessary to dip the candles in cold water.

For a clear bright red candle, it is best not to use such dark colors as blue and green candles in the melting down process. However, very often the layer of color is just on the outside, and it can be scraped off and the rest of the candle used.

Frozen Land Lacks Snow for Yuletide

Those people who think of Alaska as a land of ice and snow are mistaken!

It seems that several of the Far North communities were noticeably—even embarrassingly—lacking in snow last Christmas, and many Alaskan boys and girls who got new sleds from Santa were very disappointed.

In Seward, citizens were making plans to haul in several loads of snow from the mountains to pile around the Christmas trees on Fourth avenue as a reminder that it really was the holiday season in the "bleak and frozen north." A slight fall of snow came just in time to save them the trouble, however.

In Ketchikan, a snowless Christmas was celebrated, but this is not unusual for Ketchikan, where December 25, 1940, was the eighteenth snowless Christmas since 1917.

Presents of Cotton For Holiday Gifts

Manufacturers and stylists have worked overtime this fall to supply inexpensive, yet durable, gifts. And, believe it or not, these gifts are of cotton!

For every member of the family there is an endless variety of attractive cotton articles. For mother there are handkerchiefs, dresses, underwear, sweaters, house coats, bathrobes. For sister, pajamas, play suits, blouses, evening dresses, sports frocks, riding breeches, purses. For father, lounging robes, shirts, handkerchiefs, pajamas, sport shirts. For brother, socks, underwear, hunting coats, slacks, sweat shirts.

And for the whole family, towels, table linens, rugs, bedspreads, curtains, auto seat covers, quilts, sheets, slip covers.

So you see, your Christmas allowance will really s-t-r-e-t-c-h. There's a gift of cotton for every member of the family.

English Originate Carols

The singing of Christmas carols originated in England. According to tradition, this is the chorus of the very first: "Glory to God in the Highest, and on Earth, Peace, Good will toward Men."

FAR FLUNG ATTACK LAUNCHED BY JAPAN

Japan two hours after attacking Pearl Harbor in Oahu in the Hawaiian Islands, declared war on the United States and at the same time declared war on Great Britain.

Close military censorship was imposed. There was no official confirmation of reports of damage.

President Roosevelt in a war message to congress at noon said that Japan on Sunday without warning had attacked Pearl Harbor with great loss of life and damage. Estimate of dead said 1500 had been killed and about the same number wounded.

A Japanese bomb dropped on a barracks killed 104 soldiers.

An undisclosed number of airplanes were destroyed.

A large fleet of American bombers landed in Oahu while the attack was in progress.

Many bombs were dropped in the city of Honolulu.

The American battleship Oklahoma was reported sunk after being set afire by bombs.

An American destroyer was blown up and sunk.

A report from London said that a Japanese aircraft carrier and a number of Japanese submarines had been sunk by American naval units. A number of Japanese planes were shot down into the sea.

Parachute troops were reported landed on the island.

President Roosevelt outlined the Japanese attack as follows: Pearl Harbor on Sunday, last night, Wake Island, last night Midway Island, this morning the Philippine Islands.

FINLAND, HUNGARY AND RUMANIA ARE INVOLVED

The British government has sent an ultimatum to Finland, Rumania and Hungary with a time limit and the alternative is war.

The British have threatened war on these countries since they became partners with Germany in a war on Russia.

What would be involved in case of a declaration of war is not clear since England could in no way reach Rumania or Hungary. Naval operation against Finland would be possible.

The British move coupled with the Japanese reply to the United States over troop concentrations in Indo-China highlighted the news of the day.

The Japanese note was delivered to President Roosevelt at 11 a. m. Friday in which the Japanese said that there is no significance to the troop movement into Indo-China other than to protect that French territory against the Chinese.

The Japs said that the number of troops has at no time exceeded the number stipulated in the agreement with France.

It was said no reply had been received on the Secretary of State's

AN OPEN LETTER * ABOUT CO-OPERATION WITH Our Government IN THE INTEREST OF NATIONAL DEFENSE

TEXAS POWER & LIGHT COMPANY
EXECUTIVE DEPARTMENT
DALLAS, TEXAS

November 14, 1941

JOHN W. CARPENTER
PRESIDENT

(TO EACH DISTRICT MANAGER OF TEXAS POWER & LIGHT COMPANY)

I feel the time has arrived when we should take a further step to conserve copper, steel, and other vital materials for use in the National Defense Program.

The extending of our lines just at this time is certainly of secondary importance to carrying out successfully the Defense Program for the protection of our American way of living. Accordingly, please do not make any commitments to extend service to anyone, where such extension is not authorized by a Government Priority Rating.

Also, please defer all maintenance and reconstruction work involving the use of these vital materials and where such work is not necessary to relieve serious overload conditions or to protect life and property.

I am sure the City Officials and your customers are deeply appreciative of the situation which makes this policy of conservation necessary and that they will not make requests of you which the exigencies of the situation prohibit.

If, at any time, you are in doubt as to the advisability of extending service to some industry or individual and you are unable to resolve the problem in terms of our national situation to a satisfactory answer, please get in touch with me and I will try to assist you.

Yours very truly,
J. W. Carpenter

Jim Perkins Gets Job Done; Running Down Cow Thieves

Jim Perkins, Texas Ranger and Special ranger for the Central Texas Livestock Association, is in Cameron today from his headquarters in Hearne.

Jim is a busy man these days. Rise in livestock prices makes cattle valuable and thieves have been active in recent months. He has run down a big number of them.

Recently in Brazos county he arrested a man who had stolen 52 head and recovered all the cattle. Jim travels thousands of miles each month and says it's a real job. Central Texas cow men are highly pleased with his record.

Christmas Watched History in Making

Almost throughout the world, people are looking forward to a merry Christmas. This day, so significant to us, has seen great events occur in the history of the world.

Following is a list of important events which occurred on Christmas day:

DECEMBER 25

- Year Event**
- 800 Charlemagne, French king, crowned at Rome, Emperor of the West.
- 1066 William the Conqueror crowned at London.
- 1642 Sir Isaac Newton born. He discovered the law of gravity.
- 1776 Washington crossed the Delaware to attack Trenton.

- 1837 Gen. Zachary Taylor defeated the Seminole Indians in Florida.
- 1840 Peter Tschaikowsky born. Famous Russian composer.
- 1863 Unconditional pardon and amnesty proclaimed by the President to all inhabitants in Southern states.

'Dear Santa'

These boys want Santa Claus to know about their favorite toys in plenty of time before Christmas, and they're willing to rise to the occasion. With the help of his older brother, this young man solemnly mails his letter to "Dear Santa."

Accidents Offer Grave Threat To Yule Gaiety

Nothing can spoil the festive gaiety of a Christmas celebration more completely than a fire or accident in the home. There are several essential precautions which will help to assure a truly Merry Christmas.

- ❗ Don't risk using frayed cords and broken plugs.
- ❗ Don't handle electrical appliances with wet hands.
- ❗ Don't yank at cords or run them under rugs.
- ❗ Don't forget to have insulated staples on hand for stringing cords around.
- ❗ Don't overload your house circuit. Usually 1,000 watts is as much as any one circuit will stand.
- ❗ Don't neglect providing plenty of extra lamp bulbs of the various sizes and colors you're using for Christmas cheer, so you can replace burned-out ones.
- ❗ Don't put pennies in a blown-out fuse. A blown fuse is a warning!
- ❗ Don't have high wattage lamp bulbs near fancy inflammable ornaments, synthetic materials, paper or cotton. Watch out about using candles too near draperies, wall paper or woodwork.
- ❗ Don't plan to have a row of candles too close to a mirror or the heat may crack it.

And above all, don't burn real candles on your Christmas tree unless it has first been thoroughly fireproofed.

Antituberculosis Seals Sold in Forty Nations

Besides the United States, more than 40 different countries throughout the world now have, or have had, Christmas seals or stamps that are sold wholly or partially for tuberculosis work. Little did Einar Holboell realize, when he conceived that first Danish Christmas seal, launched in 1904, that his simple idea would in a generation circle the globe.

Claiming the honor of having originated the Christmas seal sale, Denmark has, with its neighboring country, Sweden, held seal sales annually since 1904. In the United States, seal sales began in 1907.

Up to 1934, the sale of Christmas seals in the United States alone totaled \$75,000,000, all of which has been devoted to the control of tuberculosis.

The winner on each side will meet at some time to be designated and play a three game series for the championship.

RED CROSS
(Continued from page one)

we face vast and definite responsibilities for services to our armed forces and for relief to distressed civilians. To provide essential funds Red Cross today is launching a campaign for war funds of minimum of fifty million dollars. The president will issue on Friday a proclamation supporting this appeal. Your Chapter quota is 4000 dollars. Chapters may retain fifteen per cent their collections for local war relief expenditures. Chapter should at once devote full efforts to raising their quotas in shortest possible time. Please report action taken, we must not and shall not fail in this crisis."

Bird Hunters Must Be More Careful With Matches in Pastures

Bird hunters are warned against careless throwing down of matches. They are requested to be more careful. Many complaints have come into the office of sheriff about fires started in pastures and presumably by bird hunters.

A match carelessly tossed aside can do a great deal of damage. While this request to bird hunters has nothing to do with the fire of last Sunday when Deputy C. C. Black lost 400 acres of grass, it is one instance where a major fire was set, possibly by careless use of matches.

Many stockmen are needing their grass for the winter and this is a time when everything must be conserved.

RAID ALARM SOUNDS IN NEW YORK CITY

Tokyo has been bombed. The Japanese capital is in flames and may have been subjected to a severe attack.

These were unconfirmed reports out were broadcast twice during the forenoon of Tuesday.

If the Japanese capital has been bombed it was believed from American aviators from aircraft carriers in the far east with bases in the Philippines. There was the suggestion that British planes already engaged with Japan may have dumped destruction on the city.

Russian planes, based at Vladivostok are regarded as not likely to have done the job. There are 500 American airmen in China with planes.

War news on Tuesday came in from practically every important post in the world. The earth seemed aflame. Throughout the night air raid warnings were sounded over San Francisco.

At 1 p. m. Tuesday New York City had had its second alarm and official Washington said that enemy planes were only 2 hours out of Washington City.

Families of men stationed at Mitchell Field in New York have been evacuated.

Secretary of State Cordell Hull warned the people of the United States along the coast lines against surprise attacks.

Germany will soon declare war upon the United States.

A surprise attack similar to that which the Japanese made upon Honolulu is expected from Axis powers in the Atlantic.

Japanese planes were reported over Panama.

The British are slaughtering Japanese soldiers in Hong Kong where a fierce battle is in progress. The Japanese landed additional troops in Northern Malay.

Soviet Russia was reported routing the Germans from the Moscow front in a new vicious counter offensive.

The Soviet announced that six million German soldiers have been destroyed in Russia.

The Union of South Africa has declared war upon Japan.

Manila in the Philippine Islands has been attacked by Japanese for the third time.

The United States Navy Depart-

ment will announce loss of life in the Honolulu raid as soon as possible.

Senator Tobey on the floor of the United States Senate today said a large part of the American fleet in the Pacific has been destroyed. Nobody believed him.

Soviet Russia will be asked to furnish air bases in eastern Siberia. It will be a test of Russian friendship for what has been done for the Soviet by the United States.

Fear of an attack on the west coast continued with precautions all along through the states of Oregon, Washington and California.

Police have been stationed in the Japanese Embassy in Washington to prevent suicide of Ambassador Nomura and his staff. Failure of their mission in Washington is the incentive for suicide.

Small Heater Needed For Nursery School

The White Nursery School is badly in need of a small gas stove of the bath room heater type and anyone who wishes to contribute a stove should telephone 631W.

The Nursery School has no money with which to buy the equipment and must depend upon those who are sympathetic toward little children who get cold on winter days and need heat.

This request was brought to the Daily Herald by Louis F. Gohmert who is a member of the Advisory Board of the Nursery School.

The people have been very generous in their treatment of the Nursery School and somewhere in Cameron there is a stove not in use of the type desired and if you have such a stove you will earn the gratitude of these little children if you will lend or give it to the Nursery School.

GERMANS BEATEN AND ROUTED IN SOUTHEAST

The war effort of the Democratic powers was paying off today.

The German Blitzkrieg army of Adolph Hitler has been driven out of the Rostov area in disorderly retreat in what is described as the greatest single victory of the present war in a major battle.

The battle in Libya came to life again as the British tore into the Germans full scale attack and it was said the battle had reached its third stage. This report came from Germany where it was acknowledged that the Nazi are hard pressed in the desert war.

So severe has become the weather in Russia that hundreds of German soldiers have been frozen to death. It will be remembered that in the recent war on Finland that the Red army lost thousands of soldiers from severe cold as they fought in temperatures forty degrees below zero.

Surprisingly the Germans made no effort to minimize their disaster on the south eastern front.

On the front around Tula the Germans were making some advances and had captured several villages. This was denied by the Russians. The entire eastern front was flaming from one end to the other as Russia opened the most powerful counter attack since the campaign began.

War upon Rumania, Finland, and Hungary by Great Britain will be officially in effect one minute after 7 p. m. tomorrow. At the same time

the British announced that Syria, Irak and Iran are being heavily fortified.

Washington was silent, taking another cussing from the Japanese press, but doing nothing about it.

The far eastern situation may be moving swiftly to a show down as the British made ready for war in the far east with Australia and the Dutch East Indies drawn up for battle.

Twenty Japanese business men were placed under arrest this morning in Singapore where they had just arrived with no explanation of their sudden presence in the great Naval base of the far east.

Frank Lesovsky has returned from a deer hunt in west Texas, and brought back an eight point buck. He joined friends from Waco, and reported a good time.

Mr. and Mrs. J. H. Boone left Cameron this morning for Clifton where they will make their home in the future.

WAR

(Continued from page 1)

Democrats from both sides of the aisle, rose and cheered the President vigorously. He smiled but slightly during the deliverance of the address. The President was bitter in denouncing Japan's dastardly, unprovoked surprise attack upon this country.

The address lacked the eloquence of the famous war message of Woodrow Wilson in 1917, but was so cast that it electrified the members of Congress whose enthusiasm led them to override all precedent reaching their declaration of war.

The President left the House of Representatives immediately following his address and the echoes from wild cheering had scarcely died away in the corridors of the historic capital when a vote was demanded in the House.

As members of the United States Senate filed out of the Chamber to return to the Senate Chamber members of the House broke into wild cheering. Just at the conclusion of the President's address, a United States military band played the "Star Spangled Banner."

The United States Senate beat the House by a few minutes in adopting the war resolution.

The vote in the Senate was 82 to 0 and therefore unanimous. There was not a dissenting vote.

In the House of Representatives the vote was 288 to 1. Janette

Rankin, member of the House, who voted against war in 1917, was the only member of the House to vote against the resolution.

There were many dramatic incidents during the historic session this morning.

Representative McCormick of Massachusetts, majority leader in the House, offered the resolution to declare war upon Japan. Congressman Joe Martin, Republican leader engaged in a bitter denunciation of war man Japan and predicted the suicide of the Niponese empire, calling upon all Republicans to support the President.

There was no debate in the Senate.

Congressman Luther Johnson of Corsicana spoke for 3 minutes in the House just preceding the vote in which he proclaimed the unity of America and denounced Japan's unprovoked attack upon the United States.

The war resolution was taken immediately to the printers where it will be reproduced on parchment and taken to the President late today for signature.
